SDC Education Transformation Series - 02

Welcome to SET Series of Work Shops:

SDC Education Transformation, an ecosystem dedicated to conducting industry-relevant workshops.

Our hands-on approach supplements academic learning, empowering students with practical skills beyond the curriculum.

We encourage student-led workshops, providing full support from topic selection to preparation.

Each workshop concludes with a capstone project, allowing participants to apply their knowledge.

Upon completion, participants receive recognition through awards and certificates, enhancing their professional credentials.

Join us in redefining education and shaping future industry leaders.

MICROSOFT POWER POINT 360

Welcome to our Microsoft Power Point 360 workshop! PowerPoint is a powerful tool that allows students to create visually engaging presentations. Learning PowerPoint enhances students' communication skills by teaching them how to present information effectively. It helps students organize their thoughts and ideas in a structured manner, improving their ability to convey complex information.

By mastering PowerPoint, students can effectively showcase their projects, research, and ideas in a professional and visually appealing way.

In collaboration with Department of Computer Science & Engineering

Speakers : Dr. G.S.Bapi Raju & Team.
